

ENTERPRISE ARCHITECT LEAD (M/W/D)

WHAT CONVINCES US

- Several years of experience in enterprise, domain or solution architecture, including defining target architectures and transformation roadmaps.
- Experience guiding large-scale business and technology transformations across multiple domains.
- A strong understanding of enterprise applications, SAP, data platforms, integration architectures and technology platforms.
- A proven ability to lead architecture decisions involving multiple stakeholders, competing priorities and complex dependencies.
- Experience establishing pragmatic architecture governance, principles and guardrails that enable delivery.
- Experience working with implementation partners and consulting organisations while building sustainable internal ownership.
- The ability to connect business strategy, processes, data, applications and technology, and to explain trade-offs clearly to technical and non-technical stakeholders.
- Business-fluent English; German is a plus.

WHAT YOU WILL DRIVE WITH US

- Shape and evolve Müller's enterprise architecture, ensuring that business processes, applications, SAP, data, integrations and technology platforms develop as one coherent landscape.

- Define and maintain the enterprise target architecture and realistic transition roadmaps, translating business strategy and transformation priorities into clear architectural direction.
- Provide functional leadership to the Process, Technical Domain, SAP, Data and Integration Architects, aligning decisions across domains and continuously strengthening the team's capabilities.
- Lead the Architecture Board and establish pragmatic principles, guardrails and reusable patterns, keeping architectural decisions, risks, dependencies and exceptions transparent.
- Guide strategic transformation initiatives such as SAP S/4HANA Public Cloud, the data platform and the integration platform, while reviewing major solution proposals early enough to avoid rework and fragmentation.
- Identify opportunities to simplify Müller's technology landscape by addressing duplication, technical debt and unnecessary complexity, while balancing enterprise-wide standards with justified business requirements.
- Build strong partnerships with business leaders, Tech leadership, delivery teams and external partners, while strengthening sustainable architecture ownership and capabilities within Müller.

WHAT WE OFFER

- The opportunity to shape Müller's integration architecture from the ground up, as part of a large transformation including SAP S/4HANA and a new integration platform, for one of Europe's largest family-owned retailers.
 - Modern technologies, challenging integration topics and an environment where technological excellence is explicitly encouraged.
 - Flexible hybrid working policy with 26 vacation days
 - Meal tickets and private health insurance
 - Two locations – Bucharest or Ulm
 - Modern IT organisation with 230+ colleagues, flat hierarchies and room to shape your domain
 - Employee discount on products Müller sells
